RE: NOTIFICATION OF GARDA CONTACT – Blackrock & Dún Laoghaire

Dear All,

I am writing to inform you that last night, I posted formal correspondence to the Superintendent/Officer in Charge at both **Blackrock Garda Station** (covering Merrion Park) and **Dún Laoghaire Garda Station** (covering Glenageary).

Included in these files was a copy of the Registered Post letter I sent to you on November 19th. For your records, I have attached the **proof of postage and tracking numbers** for these Garda submissions to this letter.

Domestic Terrorism and Threat to Life

The Gardaí are now aware that my allegations constitute parts of their own existing accusations of domestic terrorism arising from previous contact. It is critical that you understand the Guards are aware that these situations are life-threatening to all of us.

At any one time, **Cathal & Co**, the **de Buítléirs**, and the other terrorist cells in their network are willing to hang us out to dry. They have demonstrated a willingness to leave us homeless, starving, and/or to kill any one of us. This threat applies regardless of our circumstances—in public, at work, at home, and regardless if we live alone, live with a spouse/partner, or live with children and grandparents. No one is exempt from their reach.

The Role of the de Buítléirs

Please understand how exceptionally true this is: the de Buítléirs are 100% aware and involved.

They have successfully operated by separating their **financing and enabling** of the criminal activity from the execution of the activity itself. This separation has allowed them to mislead the family and law enforcement for decades. They have used this distance to dilute focus and derail the efforts of us, other families, and law enforcement with excuses and insufficient explanations.

They have created a system of domestic terrorism that results in us being given **hours, if not days**, to resolve issues that they have refused to address for years and decades.

Verifiable Timeframe (2004 – Present)

To cut through the decades of excuses, I propose focusing on the most verifiable period of their criminal activity: 2004 to Present Day (from the time I moved to Dublin). This period clearly demonstrates their systematic efforts to distance themselves while failing to make any sincere effort to protect us and our families, and the failure to contact myself or my parents by phone or post to confirm they are doing everything possible to protect us *because they Donal, Eileen, Joe, Cillian and Dr Cathal de Buitleir have and are doing nothing to help us, support us, protect us because they are terrorists.*

Sincerely,

Declan O'Sullivan
