RE: SUPPLEMENTARY FOLLOW-UP – Systematic Sabotage of Employment, Education & Business Interests

Dear All,

This letter serves as the third and final component of my follow-up to the Registered Post dispatched from the GPO on O'Connell Street earlier this evening (November 19, 2025).

While my previous letters detailed the audio harassment and financial surveillance, I must now place on record the **total destruction of my professional life**. The allegations and remote assaults have made it impossible to sustain employment, education, or self-employment.

1. URGENT NOTE: Local Area Employment Service (LAES) I must highlight a specific, high-risk situation regarding the **Local Area Employment Service (LAES)**. It has become dangerous for me to contact them, or for them to contact me. This is not a theoretical risk; I was subjected to a **remote attack during an appointment at their office**. Consequently, any engagement with state employment services is currently compromised and poses a threat to my safety.

2. Systematic Interference in Employment The harassment follows me regardless of the employer or location. It has forced me to leave positions abruptly and turn down major career advancements.

- **Indeed:**
 - **Lost Promotion:** I was forced to turn down a promotion to **Director of Small Business EMEA & Emerging Markets**. This refusal was solely due to the ongoing remote stalking, harassment, and assault, which included **covert surveillance within the Indeed Dublin office itself**.
 - **Attribution:** Throughout this harassment, **Cathal & Co** made sure to make the **de Buitléir** name known to everyone as the "company" orchestrating it.
 - **Global Reach:** This was not limited to the Dublin office. The harassment targeted me during all professional travel, including offices in **London (UK)** and **Stamford, CT (USA)**, as well as offsite events in **Virginia and Las Vegas**.
- **Symantec (later Broadcom):**
 - The interference impacted not just me, but my **direct manager and direct reports**, both in the office and while working remotely.
 - I was forced to **turn down a Permanent Contract offer** (transitioning from Fixed-Term) because the security issues described in my registered letter made it impossible to continue.
- **Keelings & CSO:**
 - At **Keelings**, I was forced to leave abruptly without working my notice period.

- At the **CSO**, I had to abandon my role as a Census Enumerator in **Dublin 1** as privacy concerns became more severe week after week.

3. Sabotage of Further Education & Training My attempts to retrain and upskill have been met with the same targeted interference.

- **The Code Institute (Diploma in Full Stack Development):**
 - I was extremely close to finishing this Diploma, but was unable to complete it due to a specific, targeted attack.
 - This incident targeted **Adelnielson** (a friend of mine and Diego's who lived at **Xavier Court** at the time), while Diego and I were living at **Gresham House**. The severity of this attack made finishing the course impossible.
- **The Career Academy (Accounting Technician):**
 - It became impossible to safely contact the assigned tutors. Even when I hired a **private tutor based in the Philippines**, the remote monitoring extended to these sessions, making it too dangerous to continue.

4. Prevention of Self-Employment & Business Formation I have faced extreme interference when planning, incorporating, or attempting to meet with business partners for the following entities, where I am a non-resident Director in the UK/USA:

- **Clear Strength LLP**
- **Agile Bookkeeping Ltd**
- **Hawk Eye Technology Solutions Ltd**
- **EPIC Business Services LLC**
- **High Performance Solutions LLC**

LEASE NOTE THAT THERE IS AN AMPLE LIST OF WITNESSES TO THESE EVENTS DETAILED.

Conclusion: The intent of this interference is clear: to strip me of my livelihood and professional identity. As stated, **Cathal & Co** have ensured the **de Buitléir** name is attached to this activity. I once again implore you to address these issues immediately with **Donal and Eileen**, as the current situation is unsustainable.

HOWEVER, BOTH MYSELF AND THE LIST OF LITNESSES ARE UNABLE TO SAFELY CONTACT AN GARDA SIOCHANA (PHONE/IN PERSON AT STATION)

Sincerely,

Declan O'Sullivan
